

TECHNOLOGY IN MOTION

The MACO INSTINCT App as your key

QUICKSTART GUIDE

Start

1. Make sure that your door equipped with the Bluetooth module is ready for use.
2. Enable Bluetooth on your smartphone.
3. Install the INSTINCT by MACO app.

4. Start the Instinct app.

Construction mode

In the delivery state, your door can be easily opened with the INSTINCT app even without access authorisation.

Admin Card

You will receive your INSTINCT Admin Card from your door supplier.

The data required to personalise your door is located on the INSTINCT Admin Card under a scratch area. Accept only undamaged, unscratched Admin Cards.

Keep the INSTINCT Admin Card in a safe place after installation is completed. You will need it in case you have to reset the system.

Initial commissioning & personalisation

Personalise your door with the INSTINCT Admin Card.

Welcome

INSTINCT by MACO

INSTINCT by MACO turns your smartphone into your key. Please choose an option to start:

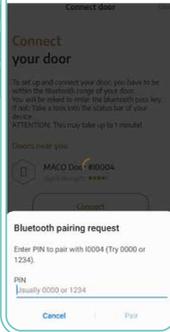

-  **Setup new door**
Become admin of a new door
-  **Enter invitation code**
Use received access permission
-  **Doors in factory defaults**
Open a door in factory defaults
-  **Construction mode**
Open a door in factory defaults

Admin card Scan QR code

Enter code manually

You received your admin card with the QR code and a 40-digit code when you purchased the door. Please keep this card in a safe place.

Perfect, Keep going!

Share One-time-key!

An one-time-key enables anybody to open the door once. After use, the code becomes invalid.

There are up to 3 one-time-keys saved and encoded locally on your device. You may share them even if you are not at the door. If you are connected to the door again, shared one-time-keys will be replaced by new ones.

One-time-keys are valid for 365 days since your last connection to the door.

3 one-time-keys left

Open

Unlock your door - via the app, external system, key or interior button.

Open via app

Open via external system

Open with a key

Open from the inside

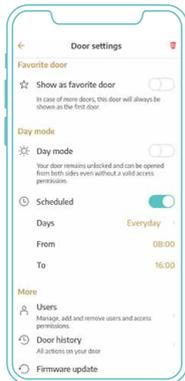

Daytime release function

Comfortable operating mode for day-to-day operation - door is not locked, opening without access authorisation is possible at any time.

Control via app

Plan via app

Control from the inside

To prevent operating conflicts, we recommend using the app or a switch to control the daytime release function.

Log

Complete overview of all openings and other events on your door, which are operated via the app.
