

HAUTAU HS & S Comfort Drive

DRIVES FOR THE SLIDING WORLD

TIMBER
PVC
ALUMINIUM

Lift and Slide ... Comfort Drive ... motor driven

The larger the glass surface, the greater the desire for easier sliding. This is where the HS Comfort drives come into play - they make light work of large-area colossi while effortlessly and quietly lifting up to 440 kilograms. Assembly is also child's play - this is ensured by the versatile modular system as well as the simple electrical connections. Lifting and sliding - motor driven.

The HS & S Comfort Drive

An overview of the benefits

Combinable

MACO-HAUTAU product solutions, can be combined with many hardware and threshold systems

Silent

Works quietly

At the click of a button

Move sliding and lifting-and-sliding elements up to 440 kilograms at the push of a button

Protects against pinching

Integrated pinching protection – safe for children and pets

Variants

HS Comfort Drive and S Comfort Drive (flush-mounted and surface-mounted)

Smart home systems

Can be integrated into smart home systems

Quick assembly

Clever modular system and simple electrical connections ensure quick assembly

Control options on the element

3-button, 1-button, key button; also control with smartphone app via WLAN box possible

Resistance Class

RC2 compatible, depending on the system.

Very special

Special solutions possible by arrangement

HS & S Comfort Drive

Two installation options

FLUSH-MOUNTED DRIVE

In the flush-mounted version, HS & S Comfort Drives disappear in the timber profile – this is unique! Also available for timber-alu.

SURFACE-MOUNTED DRIVE

HS & S Comfort Drives surface-mounted harmonise with all materials and profiles. Retrofitting is easily possible.

HS Comfort Drive

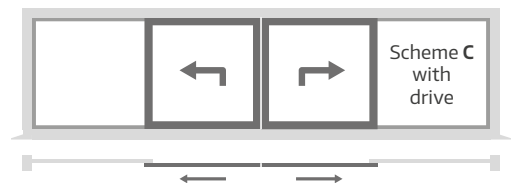

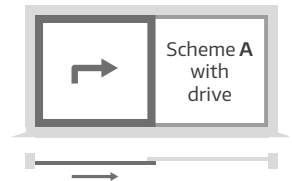

Automatically lift and slide

HS Comfort Drive is THE comfort solution - the drive motor converts classic lifting-and-sliding elements into electric ones. It is compatible with bolt drive, invisio drive and hook drive.

Low size, high performance

- › Unique: handles up to 440 kilograms sash weight*
- › Very slim lock box enables slim frame profiles
- › For Scheme A and Scheme C

* We will be happy to advise you on the right rollers. Clamping protection is required from 330 kilograms sash weight.

S Comfort Drive

One drive, two systems

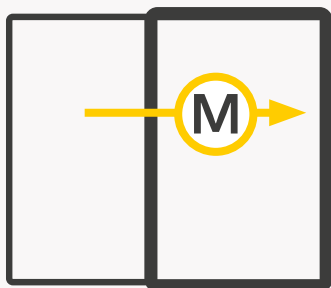

As semi-automatic and for sliding systems

S Comfort Drive can be used in two ways. With the convenient semi-automatic system, it ensures powerful opening and closing. The user only has the manual lifting and unlocking to do. In addition, this drive harmonises perfectly with sliding systems. And for accessibility, retrofitting is also possible.

For sliding systems

S Comfort Drive also harmonises with sliding systems.

Sliding systems variant

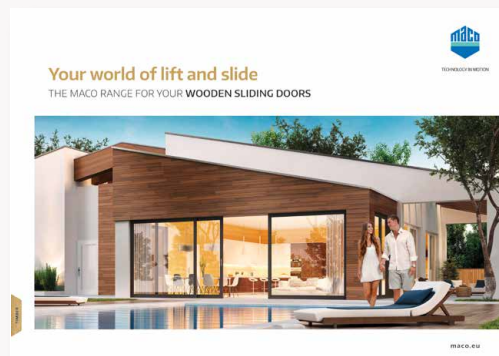

Lift-and-Slide drive motor Very smart

Easy operation in your own home? HS Comfort Drive can be integrated into your smart home system via a WLAN box. The smart phone app ("HAUTAU App") is available free of charge for Apple, Android and Windows. Alternatively, the element control via 3-button, 1-button or key switch is also possible.
