The designer solution MACO Multi Power – elegant and effective

TIMBER
PVC
ALU

Premium hardware that stays hidden

Our concealed hinge – **MACO Multi Power**. It supports and moves windows with ease and is completely hidden when the windows are closed. A reliable solution that pays off – visually and technically **elegant and effective**, which ultimately enhances any room. **That's MACO Multi Power – the designer solution.**

Benefits for fabricators

01 Efficient installation

For PVC, timber, timber-aluminium or aluminium windows – our premium hinge features an advanced design but is still quick to install.

02 Maximum freedom of design

From slender window frames to flush-mounted windows with three sashes – the possibilities are endless.

03 Strong accessories

Load capacity exceeds 150 kg, and window sashes weighing up to 180 kg can be moved with the use of accessories.

Benefits for consumers

01 Elegant design

For rooms with style: slimmer window frames and flush-mounted windows

02 First-class insulation

Highly efficient insulation with no gaps saves energy and money.

03 Impressive ease of use

Especially smooth-running operation, even with large and heavy windows

Special properties

What you can expect from us

Uncompromising quality

Right from the start and for a lifetime: **MACO Multi Power** impresses with first-class workmanship. Our designer solution includes sophisticated technology that is extremely easy to install as well as durable. This is also made possible by the improved individual components that are concealed in **MACO Multi Power** and are extremely low-maintenance.

A full range of designs

Customisation with ease: One more thing **MACO Multi Power** offers you. As a load-bearing and moving element in the frame, our premium hinge enables a weight of 150 kg for a wide range of window dimensions in designer quality. Constructions with up to three sashes as well as flush-mounted windows can be implemented. Solutions weighing up to 180 kg are also possible with accessories.

High quality of life

One hardware mechanism, many benefits: **MACO Multi Power** can be installed without interrupting the weather seal. This means insulation with no gaps, which saves heat, energy and money – and helps achieve a better sense of space. It also includes a greater sense of security, thanks to the tested burglary protection our designer solution also provides.

TECHNOLOGY IN MOTION

Coordinated solutions for a perfect fit System components for MACO Multi Power

Handles

Function, security and design: MACO offers ergonomic handle solutions with superior features.

Window rebate vents

Our window rebate vents allow ventilation even when the windows are closed – which is good for the indoor climate and the building structure.

Thresholds

No need to worry about energy loss or condensation: our threshold solutions insulate effectively.
