The complete system MACO Multi Matic (IQ) – Quality that endures

TIMBER
PVC
ALU

Everything from a single source

MACO Multi Matic has been our proven platform with solutions and system components for turn & tilt windows for more than a decade. We offer everything that supports, moves, opens, closes, adds functions and makes them barrier-free. Our entire range of products systematically builds on each other and can be combined. We are also continuously expanding the range as well as improving existing elements – which you can now identify by the “IQ” added to the name. **MACO Multi Matic (IQ) – the complete system.**

Benefits for fabricators

01 Comprehensive full range

Everything from a single source – for windows in every construction depth, including accessories

02 Clever modular concept

Designed for compatibility – for quick installation with elements that can be used in a variety of solutions

03 First-class quality

From the hardware to the look and feel, everything has been developed and manufactured with the utmost care for maximum service life

Benefits for consumers

01 Premium features

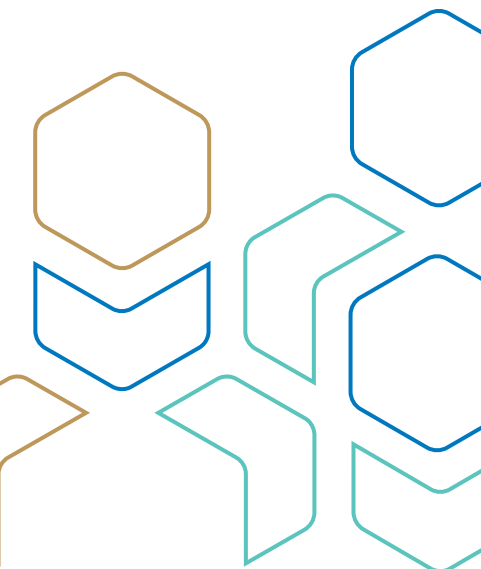

From design and function to materials: all MACO solutions offer superior quality.

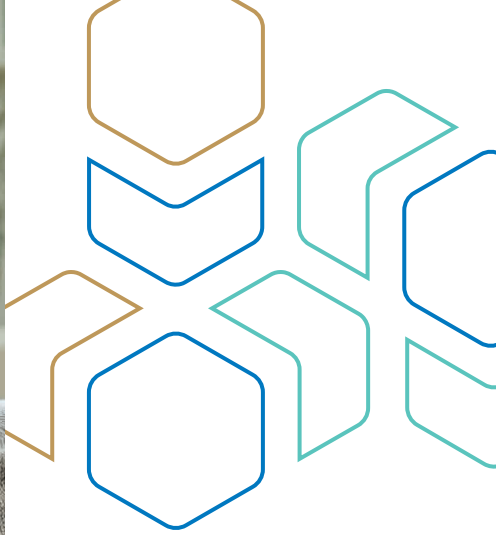

02 Highly customised

Square, triangular, round or pitched: MACO Multi Matic enables all window designs.

03 Convenient standard features

MACO Multi Matic comes with many functions and security mechanisms included – without requiring accessories.

Special properties What you can expect from us

Consistent sustainability

Sustainability has played a central role in the development of new solutions for **MACO Multi Matic** right from the start. From the choice of materials and production processes to the system design: the complete system's extra-long service life and resource efficiency are impressive – and many different window dimensions can be implemented by combining just a few elements.

Efficient installation

Manual, semi-automatic or fully automatic: **MACO Multi Matic** hardware solutions offer complete flexibility during installation. Advanced coupling systems guarantee that hardware elements can be combined individually, quickly and securely to create the desired window product. The result is greater variety in the product portfolio with less time and money spent, as well as reduced warehousing.

TECHNOLOGY IN MOTION

Coordinated solutions for a perfect fit System components for MACO Multi Matic (IQ)

Handles

Function, security and design: MACO offers ergonomic handle solutions with superior features.

Window rebate vents

Our window rebate vents allow ventilation even when the windows are closed – which is good for the indoor climate and the building structure.

Thresholds

No need to worry about energy loss or condensation: our threshold solutions insulate effectively.

More solutions:

- › Weather seals
- › Shutter hardware
- › Sensors
