The lift & slide system MACO Move HS – maximum freedom

TIMBER
PVC
ALU

Convenient way to access more light and space

Lift, slide and open as far as you like: This is the freedom that **MACO Move HS hardware** offers. A system in which the gears, rollers, gasket tracks and thresholds coordinate perfectly. For large casement doors weighing up to 500 kg, providing more light and space. And with built-in brakes that ensure maximum ease of use, even if more force is applied than necessary.

Benefits for fabricators

01 Wide variety

Everything from a single source: Hardware solutions for lift & slide doors made of PVC, timber, timber-aluminium and aluminium

02 Highly advanced modular design

Easy installation: **MACO Move HS** offers an especially wide range of system combinations that let you implement secure and customised solutions.

03 Frameless fixed glazing

More glass surface for more light and better sound insulation: Frameless fixed glazing is possible with **MACO Move HS** and lift & slide doors made from timber-aluminium.

Benefits for consumers

01 Low-maintenance ease of use

Easy and safe: **MACO Move HS hardware** enables effortless and infinitely variable opening, holding and closing of large sliding doors – for a long time and without requiring regular readjustment.

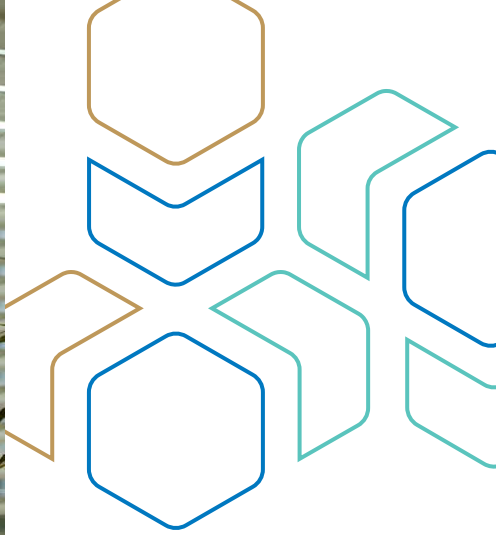

02 Built-in security

Certified and confirmed: The lift & slide hardware offers enhanced burglary protection – even when the sliding element is in the vented position.

03 Lasting quality

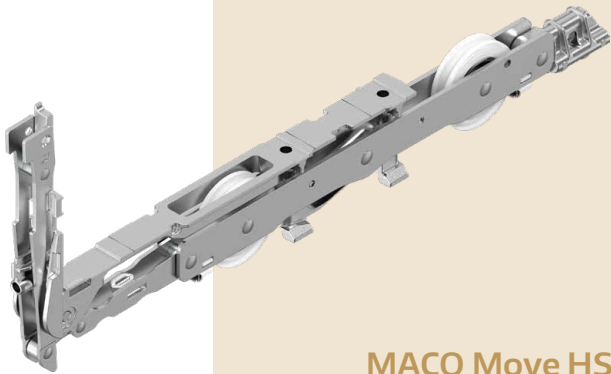

Longer lasting smooth operation: Pre-assembled cleaning brushes keep the rollers clean and thus maintain ease of sliding for years.

Innovations

MACO Move HS roller

Quiet, smooth-running and durable: The **MACO Move HS roller** was developed for the effortless lifting and sliding of doors weighing up to 500 kg. From the concept design to the choice of materials to the construction, everything about it is designed for sustainability.

MACO Move HS InfinityView

Fewer casement frames, high impact: That's what **MACO Move HS InfinityView** offers. This MACO lift & slide door solution uses glass-fibre reinforced uPVC as the base material. The effect: a virtually frameless and therefore almost infinitely wide view – with the same high level of ease of use and protection.

MACO Move HS Panorama

Beautiful views: With **MACO Move HS Panorama**, we offer a range of all-inclusive packages for the quick and safe implementation of large sliding doors combined with frameless fixed glazing. Naturally including 100% barrier-free accessibility, as the roller track can be sunk into the floor.

TECHNOLOGY IN MOTION

Coordinated solutions for a perfect fit System components for MACO Move HS

Comfort Drive drive unit

Fully or semi-automatic: **MACO Move Comfort Drive** is a motorised drive unit that effortlessly and quietly moves lift & slide doors weighing up to 440 kg. It can be concealed or surface-mounted and integrated into smart home systems.

Thresholds

No need to worry about energy loss or condensation: Our threshold solutions provide effective insulation – and can also be barrier-free on request.

Handles

Functionality, security and design: MACO offers ergonomic handle solutions with exceptional properties – for maximum ease of use with lift & slide doors.
